The impending backlash from the online community is palpable, as keyboard warriors prepare to unleash their fury over this contentious issue. While their initial ire may be aimed at the once-celebrated, straving artist, Emil, it is crucial to recognize that this reaction reveals deeper societal prejudices against the nation's small, demon ethnic community.

As a founding member of the Palmdale Chapter of Jesuits of Truth, I feel compelled to address this matter openly. The hostility directed at individuals labeled as having a "Demon" racial heritage underscores a troubling stereotype, reflecting an unjust and negative perception of those marginalized by society. It is essential to confront these biases and foster a more inclusive dialogue that acknowledges the humanity of all

individuals, regardless of their background, demon or not!
In this podcast, we will delve into the underlying reasons behind the widespread mythology and animosity towards ethnic demons, while also broadening our Venn diagrams to uncover the hidden factors that transformed beloved characters like James P. Sulley and his loyal companion, Mike Wazowski, into grotesque caricatures of their former selves.
We will examine how these once-cherished figures have been reduced to mean-spirited, foul-smelling hooligans, all while being overshadowed by disturbing conspiracy theories suggesting they could be the illegitimate offspring of the ultimate villain, the great Satan.
Encountering both of them outside the Village Theater was a jarring

experience, as they were reduced to begging for cigarettes and spare change, resembling nothing more than mere shadows of their former selves.

It was truly shocking to witness two cherished movie characters from the early 2000s, now relegated to the status of outcasts, struggling for basic necessities. This stark transformation serves as a poignant reminder of how quickly fame can fade and the harsh realities that can follow.

I quickly came back with a bulging bag of "Happy Meals," featuring a variety of limited edition toys from Ronnie MacBurger's that I hoped they could sell for enough cash to secure a room in one of the many flophouses that now occupy the once-glamorous Sunset Strip.

The conversation unfolded as they eagerly devoured their Happy Meals, revealing a heartbreaking narrative that filled me with outrage.
It was disheartening to hear how certain individuals conspired to dismantle not only their careers in Hollywood but also to reduce those with a darker disposition to grotesque, non-human caricatures reminiscent of Medieval Times or Aesop's fables.
This regression into such a toxic mindset is not only unjust but also a dangerous affront to the complexity of the non-human experience.
They eventually returned to their routine of soliciting donations from predominantly Greyline Tours groups, all while attempting to safeguard their territory against what they described as an increasing influx of homeless individuals, drug addicts, and mentally ill drifters.

These newcomers, they believed, undermined their ability to earn a decent living through begging, leveraging Sully and Mike's ethnic background to further marginalize their efforts.
This insight lingered with me, prompting my decision to immerse myself in the local "Demon" community.
I aimed to experience life among these outcasts firsthand, challenging the misleading narratives and stereotypes that surrounded them.
Similar to Old Man Hunter's (Thompson) experience in the late 1960s when he arrived at a Hell's Angels clubhouse in Oakland with a truckload of German beer and Wild Turkey whiskey, my initial encounter was far from smooth.
Like him, I faced a rough initiation, enduring a brutal beating before I

proposed that they use my rental car for a trip to San Francisco to catch Grace Slick's nightly performances at the Coffee Gallery.
Through time and with significant help from my now-cancelled WWWG Productions debit card, I managed to navigate the complexities of my artistic endeavors.
This card, which was ultimately revoked and destroyed by a regional bank manager—whose identity I cannot disclose due to ongoing legal matters—enabled me to embody a unique role. I became a blend of mascot, corporate benefactor, and a formidable presence in both business pitches and bar fight confrontations with rival non-demon factions.
The imminent release of an illustrated account detailing a holiday

weekend with my new friends from the Third Street Demons is on the horizon.
However, I must refrain from sharing a detailed account of the events, as the statute of limitations has not yet expired.
Revealing the complete story would label me a snitch, and I assure you, there is no Witness Protection Program that could safeguard me from the consequences. Trust me on this. We are dealing with Demons.
